Dear Ben!

As you know, summer is my
favourite season. This year I
spend⁺ my summer holidays
by the sea with my parents.
I swim and sunbathed

Also I met a lot of interest-
ing people. This is what
I like most of all. As I
already told you, I dream
to visit your country. To
my mind it is the best
place in the world. I

fall in love with this
country, because of its
culture, history and
places of interest⁺

Take care,

♡ Zalina.

Nowadays there is a
great number of people who
think that computers can
replace people. To my mind
machines can never replace us.
They however can be replaced.

person. Machines have no emotions or feelings. Besides they are very expensive and as a rule, they are worse than people at work. Very few people can buy a good computer or robot.

But there are some people, who say that machines are better than people, just because they can not make a mistake.

I absolutely disagree with this point of view because computers can not make a spontaneous decisions, also they are powerless in the event of accident. In conclusion I would like to say they'll never replace us, because they don't have
